

Group	Presenting Author	Session	Abstract Title
1	Alan P. Dargantes	Epidemiology	Understanding the Epidemiology of African Swine Fever (ASF) in Mindanao, Southern Philippines towards its Control
1	Anvou Rachael Jambol	Epidemiology	Status of African swine fever post outbreak survivorship among domestic pigs in Nigeria
1	Carl Leonard Pradera	Epidemiology	Epidemiology of African Swine Fever Among Selected Pork Products and Slaughtered Pigs in Davao de Oro, Philippines
1	Cherry P. Fernandez-Colorado	Epidemiology	Risk Assessment of ASFv Transmission in Pork Products and Molecular Detection in Visayan Warty Pigs in the Philippines
1	Domingo Caro III	Epidemiology	Bridging gaps in risk communication and community engagement for African swine fever management in Asia and the Pacific
1	Federica Loi	Epidemiology	Estimating the sensitivity of the surveillance system to provide evidence of African swine fever free-status in the final stage of disease eradication
1	Fernando Boinas	Epidemiology	BALANCE OF AN ERADICATION CAMPAIGN OF A SPORADIC OUTBREAK OF AFRICAN SWINE FEVER THAT OCCURRED IN PORTUGAL IN AN AREA WITH FIELD PERSISTING ORNITHODOROS ERRATICUS TICK RESERVOIRS
1	Refiloe Malesa	Epidemiology	An overview of African Swine fever outbreaks in South Africa (2016 to 2024)
1	Teola Noel	Epidemiology	Semi-quantitative risk assessment of African swine fever introduction into Trinidad and Tobago through legal importation of swine products
1	Tonny Aliro	Epidemiology	Epidemiological investigation of an African swine fever outbreak on a commercial farm in Uganda
1	Yooni Oh	Epidemiology	Community- based Biosecurity Approaches (CABI) in the Philippines and Beyond
2	Diego Rojas Morea	Epidemiology	National Biosecurity Plan for the swine value chain in the Dominican Republic: Modernization and resilience
2	Federica Loi	Epidemiology	African swine fever in Sardinia: an happy ending story.
2	Ferran JORI	Epidemiology	Assesment of carbon dioxide traps for collecting Ornithodoros ticks from warthog (Phacochoerus africanus) resting sites in Sub Sahara Africa.
2	Hadi Taghvafard	Epidemiology	Understanding the spatial transmission of the ASF virus under different ecological and production conditions
2	Harvie P. Portugaliza	Epidemiology	Community Perceptions and Epidemiological Context of African Swine Fever on Leyte Island, Philippines
2	HASAHYA EMMANUEL	Epidemiology	From national parks to international borders: Unveiling the silent threats, high-risk zones and seasons of African swine fever in Uganda
2	Hyeyoung Kim	Epidemiology	A strategic approach to disease mapping based on insights from the African swine fever outbreak in Sweden
2	Jean Nepomuscene Hakizimana	Epidemiology	Advances in molecular epidemiology of the African swine fever virus in Rwanda and Tanzania
2	Kassey Alsylle T. Dargantes	Epidemiology	Epidemiology of African Swine Fever in Pork Products and the Lived Experiences of Selected Stakeholders in Davao de Oro, Philippines
2	Kathleen O'Hara	Epidemiology	An Overview of the U.S. Swine Health Improvement Plan
2	Keneiloe Montsu	Epidemiology	Assessment of risk factors for African swine fever in Gauteng province

Group	Presenting Author	Session	Abstract Title
3	Kevin Morelle	Epidemiology	Biologging as a surveillance tool for ASF monitoring in wild boar: first insights from a Sardinian Case Study
3	Linda Peeters	Epidemiology	Network analysis of the pig transport data in the Netherlands: towards a dashboard for tracing during the high-risk period
3	Mantoane Thapelo Rametse	Epidemiology	African swine fever and smallholder farmers
3	MARIA SERENA BEATO	Virology	ASFree M.e.a.t. (meet export agreement on trading): safeguarding the Italian cured pig products from African Swine Fever
3	Mark Hovari	Epidemiology	Community African swine fever Biosecurity Interventions in Kosovo
3	Marta Martinez Avilés	Epidemiology	WiBISS: A tool to estimate losses avoided to pig producers with early ASF wild boar vaccination – a Northern Italy case study
3	Nicoletta Vitale	Epidemiology	Estimation of the sensitivity of the surveillance system used to inform actions against African swine fever in northern Italy
3	Ogweng Peter	Epidemiology	Enduring the epidemic: Disease tolerance and pig breed selection in Uganda's African swine fever hotspots
3	Okri Frejus Hans Ohouko	Epidemiology	Two complete African Swine Fever Virus Genomes Isolated from the 2023 Outbreak demonstrates the First Report of Genotype II in Benin
3	Oonagh Pretorius	Epidemiology	Enhancing African swine fever control strategies in South Africa: contributions to disease introduction and spread by smallholder pig farmers
3	Pam Luka	Epidemiology	Re-analysis of Nigeria-RV502 ASFV suggest a relationship with a vaccine candidate
4	Alexander Schäfer	Immunology	Establishment of a single-cell RNA sequencing platform for the investigation of immune responses against ASFV under high containment conditions
4	Andrei Shotin	Vaccines	Immunobiological properties of attenuated ASF virus of genotype II
4	Cherry P. Fernandez-Colorado	Immunology	Molecular Profiling of Cytokine Gene Expression: Insights into the Immune Response of Pigs Infected with Local Isolates of ASFv in the Philippines
4	Erwin van den Born	Vaccines	Vaccine strain ASFV-G-ΔI177L reverts quickly to virulence upon serial passaging in pigs and negatively impacts reproductive performance of sows
4	István Mészáros	Vaccines	AN IMMORTALIZED PORCINE ALVEOLAR MACROPHAGE CELL LINE WITH POTENTIAL FOR LIVE ASFV VACCINE PRODUCTION
4	Kirill Lotonin	Immunology	A model of protective immune responses against African swine fever virus infection in immunized pigs
4	Nadia Oreshkova	Vaccines	Comparison of African swine fever detection by qPCR in oral, nasal and anal swabs during ASF vaccine efficacy studies
4	Naoki Yoshida	Vaccines	Establishment of a replication-restricted mutant of African swine fever virus
4	Susanna Sternberg Lewerin	Epidemiology	Farmer perceptions and actions following the first outbreak of African Swine Fever in Sweden
4	Virginia Friedrichs	Immunology	Infection with moderately virulent African swine fever virus conveys protection against highly virulent challenge for at least six months
4	Nicolas Winter	Epidemiology	African Swine Fever in Latin America and Caribbean: Innovative approach for awareness campaigns
