

PROFESSIONAL
FELLOWS

AHMED AMIN REHOUMA

Alexandria, Egypt

Mr. Ahmed Rehouma is the Community Manager and Business Developer at Flux Co-Working Space, a startup hub that he founded in 2015, and the Co-Founder and Business Development Specialist at “Triplancer,” a management platform for travel agencies. Prior to founding Flux Hub, Ahmed was the Alexandria Hub Curator at Global Shapers Community, and a Chairperson of the Network for Global Professionals.

Ahmed holds degrees in Information Technology, and Entrepreneurship and Innovation Management, and has participated in various professional training opportunities centered around entrepreneurship.

Professional Goals

In the future, Ahmed hopes to join an international organization that will enhance his knowledge of international ecosystems, to improve his public speaking and presentation skills, and to inspire others to affect positive change in their communities through the creation of community development programs.

Professional Fellows Program Objectives

Through the Professional Fellows Program, Ahmed hopes to learn about different models of support in the startup ecosystem and explore various incubator structures. By exploring the startup ecosystem, Ahmed hopes to gain insight into best practices in technology incubation that can be shared and customized with counterparts in Egypt.
