

PROFESSIONAL  
FELLOWS

## MOSTAFA FECHFOUCH

*Hydra, Algeria*

Mr. Mostafa Fechfouch joined CloudWind as a Software Engineer in September 2021 where he is responsible for designing and implementing solutions as websites and mobile applications. He is also the manager and a co-organizer at Google Developer Group El Baradh where he runs workshops and trainings in the technical field that have reached hundreds of people. His new workshop series, Kickstart, supports students and unemployed youth boost their careers by providing them with technical job skills. He is also an "IamRemarkable" facilitator - a Google initiative that empowers women and underrepresented group celebrate their achievements in the workplace. Mostafa holds a master's degree in computer science and is a current PhD student in data science.

### *Professional Goals*

In the future, Mostafa seeks to give a helping hand to disadvantaged individuals in his society by providing a well-detailed and easy to follow series of training and branding so that they can learn how to better their products, company, and their economic progress.

### *Professional Fellows Program Objectives*

Through the Professional Fellows Program, Mostafa hopes to learn more about business management fundamentals such as developing a business plan, marketing, and gaining an understanding of social entrepreneurship. Mostafa also seeks to further develop his leadership skills and eventually found his own startup while pursuing a higher position within his current occupation.
